C. NOTES.

A. This First Copy attempts to compile all information available within the C&SFFCD bldg., & does not attempt to solve the problems that require correspondence, leg-work, or phone calls to areas outside the bldg.

The requirements of these "outside" problems have been tabulated in the NOTES on individual sheets of this set.

B. Not shown elsewhere in this compilation are the following 9 of 34 SDD's inherited from the former EVERGLADES DD (see FCD Dwg. SD-1) that now may-or may not -still be in exist.:

Baker Haul-over	Dade Co. W.C.	Hicpochee
Biscayne	Gladeview	Indian Prairie
Citrus Center	Goulds	Southern.

This map was compiled from U.S. Geological Survey quadrangle maps, U.S. Coast & Geodetic planimetric maps, aerial photography flown in May 1943, U.S. General Land Office plats, other map data and road investigations made in 1953-1954.

Portions of railroad not field checked to show topography.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1960.

In congested built-up areas local roads are indicated by a single line only. For details refer to insets pursued for this county.

This map was projected on the transverse Mercator projection with 1 degree coordinates as established for the Florida East Zone.

This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office and state survey plats, aerial photography flown 1953-58 and April 1960, road inventory surveys December 1960, and other map data.

This map was prepared on the transverse Mercator projection, East Zone, Florida system of plane coordinates.

The Wildlife Management Area boundary as shown on this map is approximate and subject to change by the Florida Game and Fresh Water Fish Commission.

The railroad station symbol as shown on this map does not necessarily denote the presence of a station or facility. It may be only a point designated for the pick-up or delivery of freight such as a platform or siding.

Portions of railroads and other secondary symbols are omitted in order to show topography.

In congested rural areas local roads are indicated by a single line only. For details refer to charts prepared for this county.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1960.

All of the area within corporate limits is not necessarily included in the applicable urban area. For details refer to urban area maps prepared for each city.

TALLAHASSEE, FLORIDA

This map was compiled from U.S. Geological Survey quadrangle maps, special photography flown in 1956, 1959 and 1960, General Land Office and state survey plats, road inventory surveys January 1963 and other map data.

This map prepared on the transverse Mercator projection, East zone, Florida system of plane coordinates.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

Portions of railroads and other secondary symbols are omitted in order to show topography.

In congested rural areas local roads are indicated by a single line only. For details refer to inset sheets prepared for this county.

No attempt has been made to show all drainage canals and ditches.

City populations are taken from the U.S. Census for 1960.

Northeast, Northwest, Southeast, and Southwest sections of Miami are divided by Miami Avenue and Flagler Street.

This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office and state survey plats, aerial photography flown in March, 1957, road inventory surveys of August, 1960 and other map data.

This map was prepared on the transverse Mercator projection, East Zone, Florida system of plane coordinates.

In unsurveyed areas, total yards on lines are indicated by a single line only. Parenthesis refer to insets prepared for this county.

Portions of railroads and other secondary symbols are omitted in order to show topography.

No attempt has been made to show all drainage canals and ditches.

The railroad station symbol as shown on this map does not necessarily denote the presence of a depot or like facility. It may be only a point designated for the receipt or delivery of freight, such as a platform or siding.

The Wildlife Management Area boundary as shown on this map is approximate and subject to change by the Florida Game and Fresh Water Fish Commission.

City populations are taken from the U. S. Census for 1960.

FISHEATING CREEK WILDLIFE MANAGEMENT AREA

FISHEATING CREEK WILDLIFE REFUGE

SEMINOLE INDIAN RESERVATION

BRIGHTON

OKEECHOBEE

Kissimmee River

Lake Okeechobee

NEWHALL D. D.

FLAGHOLE D. D.

DISTON ISLAND D. D.

SUGARLAND D. D.

The shoreline as shown for Lake Okeechobee approximates the 14 foot contour, based on mean sea level datum. The lake is regulated by the Corps of Engineers according to a seasonal schedule ranging from elevation 13.00 feet to elevation 15.50 feet (M. S. L. D.)

GRID NORTH AT TRIANGULATION STATION "BOAR" IS 0°28'30" WEST OF TRUE NORTH
MAGNETIC NORTH IN MAY, 1961 IS APPROXIMATELY 1°0' EAST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 5' WESTWARD

SR 80 & 25 CITY LIMITS	JULY, 1965

REPRINTED JULY, 1965

In congested rural areas culvert features omitted entirely and local roads indicated by a single line only. For details refer to insets prepared for this county.

The road network on the transverse Mercator projection with grid coordinates as established for the 1927 datum.

Townships and sections surveyed by the U.S. Bureau of Land Management, formerly the U.S. General Land Office, are shown by solid lines. Townships and sections surveyed by the State of Florida are shown by dashed lines.

City populations are either estimated or taken from U.S. census for 1960.

Levees shown only on inset, survey space permits.

- TRIANGULATION STATION WITH NAME
- LOCATION OF SYMBOL

GRID NORTH AT ROUTEBOY IS 0°11'25" EAST OF TRUE NORTH
MAGNETIC NORTH IN JANUARY 1963 IS APPROXIMATELY 9° WEST OF TRUE NORTH
ANNUAL MAGNETIC CHANGE IS APPROXIMATELY 3° WESTWARD

NOTES:

"A" Fort Pierce Farms D.D. The "excluded" areas of annotated dwg. SD-P-9, if followed literally, also "exclude" the E. bdry. indicated by the annotations. The interpretation of this (14Feb67) dwg. follows the excluded areas literally, moving the E. bdry. to the W. of the position indicated by the annotations.

"B" N. St. Lucie Riv. D.D. On this (14Feb67) version of annotated dwg. SD-P-31, (1) the excluded area is greater & (2) the W. bdry. is 3 mi., farther W. than on other (Zensen's, Opal's & Tony's) sketched versions of SD-P-31.

This map was compiled from U.S. Geological Survey quadrangle maps, General Land Office plats and drainage district maps, aerial photographs of 1958, and county surveys of October, 1961, and other existing data.

The various highway symbols as shown on this map does not necessarily indicate the existence of a paved or improved roadway, but may only indicate a right-of-way.

Mileages of unnamed streets, roads or highways are indicated by a single mile figure. For details refer to streets annotated on this map.

No attempt has been made to show all cemeteries, airports or churches.

City boundaries are taken from the U.S. Census for 1960.
